PROFESSIONAL SUMMARY

Energetic and resourceful engineering student with hands-on experience in software development, data analytics, and system design. Adept at problem-solving, quick learning, and delivering results as part of collaborative teams. Passionate about applying programming skills to real-world challenges.

EXPERIENCE

Embedded Software Development Intern – Pushkala Technologies Pvt. Ltd (Aug 2023 – Oct 2023)

- Gained hands-on experience in embedded systems development.
- Collaborated with technical teams on system optimization efforts.
- Contributed to internal software enhancement processes.

Data Analysis Intern – Edunet Foundation (Oct 2023 – Dec 2023)

- Built 5+ dynamic Power BI dashboards improving data visibility by 40%.
- Automated 10+ weekly reports using DAX and Power Query reducing manual effort by 70%.
- Performed ETL on datasets of over 50,000 records to derive insights.

Data Science, AI & ML Intern – Karunadu Technologies Pvt. Ltd. (Nov 2025 – Feb 2026)

- Completed an internship program in Data Science, AI, and Applied Machine Learning.
- Worked on real-world datasets to build and evaluate machine learning models.
- Performed data preprocessing, feature engineering, and model development.
- Strengthened analytical and problem-solving skills through practical implementation.
- Successfully completed the internship with hands-on industry exposure.

EDUCATION

Masters in Engineering (M.E.) – Computer Science & Engineering (CSE), Dr. Ambedkar Institute of Technology (2024–2026) Pursuing

CGPA: Semester 1 – 7.50, Semester 2 – 6.82, Semester 3 – 7.57

Bachelor of Engineering (B.E.) – Information Science & Engineering (ISE), Vivekananda Institute of Technology (2020–2024)

CGPA: 6.88

Pre-University Course (PUC) – Sri Krishna PU College (2018–2020) Percentage: 57%

SSLC – Martin Luther English School (2017–2018) Percentage: 55.8%

TECHNICAL SKILLS

Languages: Python, Java, C/C++, SQL, Data Structures

Tools & Platforms: Power BI, Power Query, Android Studio, Azure, Mac OS, Ubuntu

Concepts: Data Structures, Deep Learning, OOP, Cloud Security, Machine Learning

Applications: Microsoft PowerPoint, Microsoft Word, Gmail

PROJECTS

Age-Invariant Face Recognition System (2023–2024)

- Developed a CNN-based facial recognition system.
- Trained and evaluated models for security and access control.

Petshop Management System (2023)

- Built a web-based system for secure pet shop transactions.
- Integrated dashboard reducing manual tracking by 60%.

Online Money Transaction System (2023)

- Implemented secure file-based transaction platform.
- Applied file structure algorithms and data protection techniques.

LANGUAGES

English (Proficient), Kannada (Native), Hindi (Advanced), Tamil (Proficient)

STRENGTHS

Quick Learner, Confident & Determined, Effective Communicator, Team-Oriented & Adaptable

INTERESTS

Music, Traveling, Handicrafts, Reading Books, Playing Sports
